Usage temperature (°C):	+10 - +25
Application/Equipment:	Roller, brush
Equipment cleaning:	Water, before the product sets
Product removal:	Water
Storage (months): temperature between +5 °C and +25 °C	12
Disposal information:	Dispose of in compliance with the local and national regulations in force
Packaging:	5-litre containers
Usage limitations:	Frost sensitive Do not use on marble or delicate materials Always use suitable personal protective equipment Always consult the technical and safety information sheets

SURFACE PREPARATION:

Remove any material that has accumulated on the surface (leaves, dry twigs etc.).

APPLICATION:

Stir the product thoroughly before use. Apply evenly using a roller or brush.

Let the product settle for approximately 5 - 10 minutes under normal conditions, and remove the surface film working vigorously with a semi-rigid or rigid brush. Rinse with plenty of clean water. In the case of stubborn dirt repeat the procedure and rinse with a pressure washer.

Once the wooden surface is completely dry, apply one or two coats of the PAVIDEK or PUREDEK sealer (see technical data sheet).

HAZARD PICTOGRAMS:
